B. Transit 101 2017 (Mobility Coordination)

Mr. Gonzalez stated that ICTC recently held its third annual Transit 101 session on October 4, 2017 at the ICTC office from 10:00 AM to 12:00 PM. The session is conducted in October during the regular Social Services Transportation Advisory Council (SSTAC) meeting.

Staff from Imperial Valley Transit (IVT); IVT Access, the Americans with Disabilities Act paratransit services; IVT RIDE, paratransit for seniors and persons with disabilities; and IVT MedTrans, the non-emergency transportation to medical facilities in San Diego, presented information on their specific services. In addition, the IVT branded service vehicles were on display in the parking lot.

Each year, a few new agencies attend gaining information that potentially enables them to better serve their clients’ needs including but not limited to; the County Health Department, the County Behavioral Health Department, Pioneer’s Memorial Hospital, Access for Independence and the Work Training Center.

C. 2nd Project Update – Federal Transit Administration (FTA) Section 5310 Grant Program for Elderly and Disabled Transportation Services FY 2014-15 (Mobility Coordination)

The Mobility Coordinator is responsible for assisting existing ICTC transit and contractor staff in addressing two primary areas:
1. The 2014 Human Services – Public Transit Coordinated Planning efforts goals; to use a bilingual Mobility Coordinator to bridge the gap between current public transit service providers, human service agencies, social service agencies and the senior citizen and disabled communities of Imperial County.
2. Address the recommendations in the consultant prepared ADA Certification and Eligibility Process, Demand Management Project; to revise the certification and eligibility process (implemented January 2017)

Mr. Gonzalez stated that since the approval of the Mobility Coordination grant he has been busy with providing outreach to local social services agencies; creating the “Do Not Leave Alone” Policy; providing ADA interviews; and, providing bilingual Facebook alerts. For the 4th year in a row IVT will be participating in the “Stuff a Bus” event where all canned foods and non-perishables will be used in lieu of fares, and they will be donated to the Imperial Valley Food Bank.

In addition to the above stated, continued public outreach has been provided for the IVT MedTrans services in San Diego.

Mr. Gonzalez attached a list of the several individualized coordination and training sessions provided by the Mobility Coordinator directly, or with contractor’s transit staff. The Mobility Coordinator has provided a needed and appreciated point of contact,
including some personalized case management for the community and in particular for seniors and persons with disabilities. Mr. Gonzalez provided an overview of key accomplishments to date.

B. IVT Bus Operations Facility Evaluation Phase 1

Property: 1605 Adams Avenue, El Centro, Ca 92243

Mr. Aguirre provided the Committee with the results of the consultant’s study. Below are the options outlined in the staff report for consideration by the Commission.

Option A
Proceed with Phase 2 of the project and complete the comprehensive analysis of the Adams Avenue Facility. In addition, ICTC staff would return to the Commission for instruction to commence negotiations with Caltrans regarding the acquisition of the facility.

Pros: The site is larger than ICTC’s existing maintenance and operations facilities and
could assist with the goal of consolidating both the leased Ross Road and Industry Way locations.

Cons: Phase 1 has determined that the site would require extensive, costly rehabilitation and demolition to make it functional for the “move in ready” option. The site under the “move in ready” option would provide some upgrades over existing facilities but would not be sufficient for any future needs or expansion.

**Option B**

Do not proceed with the Phase 2 portion of the project, do not move forward with the acquisition of the Caltrans facility and look at other potential sites suitable for ICTC’s transit and administrative needs as previously directed by the Commission.

Pros: Saves the remaining funds previously allocated towards the Phase 2 of this project ($180,041.00). Look at various other sites capable of meeting ICTC’s existing and future transit and administrative needs.

Cons: Time required in a search for a new site and continued use of the existing duel site scenario for maintenance and operations services.

**Option C**

Reallocate the Phase 2 budget ($180,041.00) and utilize a portion of the budget to issue a contract amendment/change order with the existing consultant CH2M Hill to complete an initial study for a new site not to exceed (NTE) $50,000 and work with a real estate consultant to review multiple potential sites.

Pros: Streamlines the process to complete preliminary engineering services for a new site while also utilizing existing budgeted funds. Engineering services would be performed by a consultant team already familiar with ICTC and the transit operations.

Cons: Engineering services would be limited to the existing consultant.

It was requested that the ICTC Management Committee forward this item to the Commission for review and approval after public comment, if any:

1. Proceeding with Option B:
   a. Authorizing the Executive Director to cease the pursuit of the Caltrans facility.

2. Proceeding with Option C:
   a. Authorizing the Executive Director to prepare a contract amendment/change order with the existing consultant (CH2M Hill) to complete an engineering analysis for a different potential transit maintenance and operations yard, with ICTC Administration building location from the existing project budget (Not To Exceed $50,000).
   b. Authorizing the Executive Director to engage a real estate consultant to look at multiple sites from the existing project budget.

A motion was made by Wells seconded by Piedra, **Motion carried** unanimously.

Mr. Baza stated that these recommendations are consistent with the direction given to staff at the meeting in September.

Ms. Williams provided background information regarding the consolidation of the five public dial-a-ride services: Brawley, Calexico, El Centro, Imperial and the West Shores. Previously, there were multiple operators under separate contracts with these agencies.

In February 2014, fourteen transportation providers were invited to submit written proposals for consideration for the service branded as IVT RIDE, and with logo colors of yellow, black and white. The providers were requested to submit one proposal for all five of the paratransit services for a five year contract, with three one-year extensions. The new contract would be administered by ICTC.

The participating public agencies would terminate their individual contracts during a scheduled transition effective in FY 2014-15. However for accountability, a new Paratransit Coordination Committee (PCC) would be created by which the participating public agencies would review system performance, make recommendations and retain the ability to be responsive to their constituents.

Based on the results of the competitive bid process, it appeared that an opportunity to achieve greater efficiencies, better compliance with regulations, new technology for reservations/dispatching and performance management, and cost reductions could be achieved through the consolidation of the operations including; management, dispatch, reservationists, maintenance and marketing under one provider under one contract. Ultimately First Transit Inc. was selected as the most responsive provider.

Included in the service contract was the benefit of coordinated bilingual dispatching and a computerized reservation system, a fuel escalator for fuel prices that exceed the negotiated price per a gallon, a marketing and public outreach allowance (to be developed annually based on available funding per year), replacement of the any previous vehicles with fourteen (14) new, smaller and ramp equipped paratransit buses, in house maintenance support services and a dedicated management team.

ICTC procured the paratransit vehicles and service started in Brawley, Calexico, Imperial and the West Shores in FY 2014-15 with El Centro joining in FY 2016-17.

Data from the previous operators was not able to be verified related to passengers per day/hour etc. Therefore, service delivery began with the same service hours/days and fares as had been in operation under the previous City’s contracts. Shown below are the fares for each service area as follows:

- Brawley - $1.50
- Calexico - $1.00
- El Centro - $1.25
- Imperial - $1.75
- West Shores - $2.00

With the exception of the City of El Centro Service Area, service has been in operation under the demonstration period of three years. Staff have evaluated the services, the Paratransit Coordination Committee (PCC) has met a minimum of twice annually in each of the three years and recommendations for service changes have been developed.

Below are the system wide recommendations:

- Allow for limited hand carried bags on board
- Various - Increase fares, Reduce service hours, Reduce service days
- Reduce marketing expenses
- Reduce eligibility age for seniors from 60 to 55 years

Below are the specific recommendations for each service area:

**Brawley**
The service in Brawley is provided with two buses M – F, one bus on Saturdays, and primarily focused on providing access to medical facilities in the area of the Pioneers’ Hospital, Walmart, the Nutrition program at the Senior Center and Day Out facilities. The fare is $1.50. Service in the PM after 3PM is very low. Service on Saturdays is very low. The farebox ratio is under the required 10%.
1. Maintain one bus with service hours on M – F 7AM to 6PM and the second bus reduce the service hours to 7 AM to 3PM.
2. Reduce the service hours on Saturdays from 7AM to 6PM, to 8AM to 2PM.

**Calexico**
The service in Calexico is provided with three buses M – F, one bus on Saturdays and Sundays, and primarily focused on providing access to Walmart, the Nutrition program at the Senior Center and Alegria facilities. The fare is $1.00. Service is steady on the weekdays and the weekend. The farebox ratio is under the required 10%.
1. Conduct more outreach
2. Raise fares

**El Centro**
The service in El Centro is provided with four buses M – F, one bus on Saturdays, and primarily focused on providing access to medical facilities in the area of the ECRMC Hospital, medical facilities in the City of Imperial and along the La Brucherie Rd/Ross Rd, Walmart, the Nutrition program on Waterman Ave the Senior Center and Day Out facilities. The fare is $1.25. Use of the service is increasing even though it has been in operation for only six months.
1. No changes recommended at this time.

**Imperial**
The service in Imperial is provided with one bus M – F, one bus on Saturdays, and primarily focused on providing access to medical facilities in the City of Imperial and El Centro area programs and services including medical facilities in the area of the ECRMC Hospital, and along the La Brucherie Rd/Ross Rd, Walmart, the Nutrition program on Waterman Ave, the Senior Center and Day Out facilities. The fare is $.75 in town and $1.75 to and from El Centro. Service on Saturdays is very low. The farebox ratio is under the required 10%.
1. Reduce the four Saturdays a month to two Saturdays a month due to very low ridership
2. Increase fare to and from El Centro.
3. In a future competitive bid, consider combining service area of El Centro and Imperial into one contract/ scope of work to reduce any reporting and admin overhead costs.

**West Shores**
The service in the area of the West Shores is provided with one bus and primarily focused on providing access to the IVT bus stop in Westmorland for activities in Westmorland and Brawley and return on Tuesdays, and access to the Nutrition program on Thursdays. The fare is $2.00 in the community and $3.00 to and from Westmorland. Service is low. The farebox ratio is under the required 10%.
1. Review a trip to Coachella/Indio instead of Westmorland and Brawley
2. Review a trip to the Brawley transfer terminal and Walmart w/o/wo a connection to the IVT bus stop in Westmorland on Tuesdays due to difficulty for seniors etc. in making the transfers.
3. Raise fare
4. Retire the service due to very high cost per passenger

The triennial performance data was also attached to the agenda for comparison.

After the recent review by the TDA Performance audit team, ICTC staff recommends that the service changes be implemented effective January 1, 2018, after a period of public notice. However, staff also recommends that any fare increases be deferred until a system wide fare study of all of the transit services can be completed during FY 2018-19.

It was requested that the ICTC Management Committee forward this item to the Commission for review and approval after public comment, if any:

1. Direct staff to implement the recommend changes to the service operations as of January 1, 2018 after public notice.
2. Direct staff to include the IVT RIDE services in a future system wide transit fare study.

A motion was made by Bayon Moore seconded by Wells, Motion carried unanimously.

   Staff from Imperial Valley Transit (IVT); IVT Access, the Americans with Disabilities Act paratransit services; IVT RIDE, paratransit for seniors and persons with disabilities; and IVT MedTrans, the non-emergency transportation to medical facilities in San Diego, presented information on their specific services. B. 2nd Project Update - Federal Transit Administration (FTA) Section 5310 Grant Program for Elderly and Disabled Transportation Services FY 2014-15 (Mobility Coordination)

   In February 2015, the Commission approved ICTC’s submittal of a FY 2014-15 FTA 5310 Grant application. The federal grant program had been revised to include funding for certain transit operational expenses and mobility management program functions.

   It was staff’s recommendation to fund a Mobility Management/Coordination position with a new ICTC employee. The position was to be of a professional classification and require a standard recruitment process. The recruitment process was completed and the staff person has been engaged in Mobility Coordination since February 2016.

   The Mobility Coordinator is responsible for assisting existing ICTC transit and contractor staff in addressing two primary areas:
   1. The 2014 Human Services – Public Transit Coordinated Planning efforts goals; to use a bilingual Mobility Coordinator to bridge the gap between current public transit service providers, human service agencies, social service agencies and the senior citizen and disabled communities of Imperial County.

As of October 2017, several additional presentations have been made to social service agencies, service clubs and agencies such as County Behavioral Health. In addition, continued public outreach was provided for the IVT RIDE within Imperial Valley and IVT MedTrans services in San Diego.

Mr. Gonzalez attached a list of the several individualized coordination and training sessions provided by the Mobility Coordinator directly, or with contractor’s transit staff. He stated that the Mobility Coordinator has provided a needed and appreciated point of contact. This activity has included some personalized case management for the community and in particular for seniors and persons with disabilities. Mr. Gonzalez provided an overview of several key accomplishments to date.

VII. ACTION CALENDAR

A. 2018 State Transportation Improvement Program (STIP) Recommendations for Imperial County

Ms. Mendoza presented this item to the Commission.

The 2018 Fund Estimate also provides $716,000 for Planning, Programming and Monitoring (PPM). This amount is limited to 5% of available RIP funding and is deducted from the RIP funding share. PPM funds are restricted to programming years 2020/21, 2021/22 and 2022/23. Because ICTC has already programmed the maximum 5% allowed for PPM through FY2018/19, PPM funds are not available for programming in FY2019/20.

ICTC staff met with Caltrans District 11 staff and ICTC’s STIP consultant, COH and Associates, Inc., on August 25, 2017 to discuss options and draft recommendations for the 2016 STIP. The meeting between Caltrans and ICTC is required pursuant to the STIP Guidelines. Caltrans staff stated that the cost estimate to complete the I-8/Imperial Avenue Interchange reconstruction project has increased from $39,098,000 to $44,240,000. The reasons for the increase are:

STIP guidelines require that ICTC submit the 2018 STIP Recommendations by December 15, 2017. It is anticipated that the CTC will adopt the 2018 STIP by March 2018.

The recommended 2018 STIP for Imperial County is summarized in the attachment to this letter. ICTC Management Committee met on October 11, 2017 and forwarded the following recommendation(s) to the Commission, after the review of public comment, if any:

1. Approved the 2018 STIP Recommendations for Imperial County, requesting funding for the I-8/Imperial Avenue Interchange project and Planning, Programming and Monitoring (PPM). The funding request is as follows:

| 2018 STIP Programming Proposed Amendment ($1,000) |
|----------------------------------|------------|-------------|-------------|-------------|-------------|-------------|
| Project                        | Prior FY18-19 | FY19-20     | FY20-21     | FY21-22     | FY22-23     |
| I-8/Imperial Ave Interchange - existing | $6,428 | $31,412 |
| I-8/Imperial Ave Interchange - additional | +$996 | =$3,244 |
| PPM - existing                 | $300        |
| PPM – additional               | +$239       |
| **Total – Proposed Revision**  | **$7,424** | **$300**    | **$34,656** | **$239**    | **$239**    |

A motion was made by Amparano and seconded by Pacheco, Motion carried unanimously.

B. IVT Bus Operations Facility Evaluation Phase 1
Property: 1605 Adams Avenue, El Centro, Ca 92243

Mr. Aguirre presented this item to the Commission.

Since 2012, ICTC began the transition of acquiring and taking ownership of the IVT branded services vehicle fleet. The fleet size has grown to 67 total vehicles. Previously First Transit (Operator) provided the vehicles for the operation of service. The acquisition of vehicles was accelerated due additional revenues received as a result of the Point of Sale Transaction sales tax revenues related to solar infrastructure projects within the County of Imperial.

The IVT branded services has also expanded over the past few years with the additions of IVT Ride and IVT MedTrans services. The service expansions created the need to acquire additional bus drivers, dispatching staff and administrative staff. The expansion of the vehicle fleet and services has impacted the available space for parking storage and operations, and has created a need for additional capacity.

Due to the lack of space, IVT currently utilizes two locations to conduct operations. The larger facility located at 792 Ross Road in El Centro has been in use since 2005 and currently stores and maintains all of the IVT service vehicles, dispatching for the IVT service, provides a small area for farebox storage and collection, small offices for safety and security staff and maintenance staff and a small office area for walk up passengers purchasing tickets. The Ross Road facility also provides three bays for bus maintenance, parts inventory and employee parking.

The second facility located one block away on Industry Way has been in use since 2011 and provides dispatching services for the IVT Ride, IVT Access and IVT MedTrans services, offices for senior management and administrative staff, record storage, and a training room for bus drivers and administrative staff.

It is important to note that the two current bus operations and maintenance facility, and administrative office both are leased by First Transit Inc. from local private owners. Many public transit systems own or lease their own facilities in order to be able to better control capital costs and manage the potential for contractor turnover as a result of competitive bids.

Caltrans recently completed the transition to its new facility resulting in the opportunity to possibly acquire the old Caltrans maintenance facility located at 1605 Adams Avenue in El Centro. Caltrans has provided ICTC with the first opportunity to acquire the old Caltrans maintenance facility.

In order to better determine the feasibility of an acquisition, ICTC issued a Request for Proposals (RFP) in March 2017 to complete a comprehensive evaluation of the facility. The services requested as part of the RFP included but were not limited to:

1. Completion of an Assessment of the existing Imperial Valley Transit Bus Operations Yard along Ross Road to obtain critical information pertaining to current operations and existing infrastructure and how those elements will be integrated into the new facility.
2. Completion of a comprehensive evaluation of the proposed Imperial Valley Transit Bus Operations Yard along Adams Avenue to evaluate existing conditions, note areas of deficiency and issue recommendations for improvements to the facility.
3. Preparation of a comprehensive evaluation report of the new facility noting the findings pertaining to the assessment of the existing facility and evaluation of the
new facility, providing recommendations pertaining to items that require immediate improvement, short term improvement and long term improvement, providing space use projections and site plans, providing information pertaining to required permits, environmental and study documents and various other items.

The contract was awarded to the consulting firm of CH2M Hill to complete a two phase evaluation of the facility. CH2M Hill proposed to complete an initial feasibility assessment (phase 1) to determine if the facility could be converted for the existing and future bus fleet. If it was determined under phase 1 to be feasible for the transition, phase 2 would complete a more comprehensive evaluation. The award of contract value for phase 1 is $51,780.00 and phase 2 is $180,041.00.

CH2M Hill completed the phase 1 evaluation of the facility and prepared a thorough report noting information pertaining to the existing IVT infrastructure, fleet and operations, substantial critical information about the Adams Avenue facility, information about the viability of the Adams Avenue facility being converted to a transit facility, the viability of the facility being able to accommodate ICTC’s current and potential future fleet and operations, information pertaining to improvements required to possibly make the facility move in ready under existing conditions or eliminating all buildings at the facility and starting with an empty site (ultimate option) and rough order of magnitude cost for the move in ready and ultimate options.

The report noted several required improvements like permitting, coordination with the City, environmental studies, design engineering, construction activities such as demolition, building repair, pavement repair, environmental item mitigation and various other items. The approximate cost to complete the required improvements to make the facility move in ready is approximately 6.5 million while the ultimate option cost is approximately 15 million. The phase 1 evaluation is attached to this letter for review.

Therefore, the following are options for consideration by the Commission:

**Option A**
Proceed with Phase 2 of the project and complete the comprehensive analysis of the Adams Avenue Facility. In addition, ICTC staff would return to the Commission for instruction to commence negotiations with Caltrans regarding the acquisition of the facility.

Pros: The site is larger than ICTC’s existing maintenance and operations facilities and could assist with the goal of consolidating both the leased Ross Road and Industry Way locations.

Cons: Phase 1 has determined that the site would require extensive, costly rehabilitation and demolition to make it functional for the “move in ready” option. The site under the “move in ready” option would provide some upgrades over existing facilities but would not be sufficient for any future needs or expansion.

**Option B**

Do not proceed with the Phase 2 portion of the project, do not move forward with the acquisition of the Caltrans facility and look at other potential sites suitable for ICTC’s transit and administrative needs as previously directed by the Commission.

Pros: Saves the remaining funds previously allocated towards the Phase 2 of this project
($180,041.00). Look at various other sites capable of meeting ICTC’s existing and future transit and administrative needs.

Cons: Time required in a search for a new site and continued use of the existing dual site scenario for maintenance and operations services.

Option C

Reallocate the Phase 2 budget ($180,041.00) and utilize a portion of the budget to issue a contract amendment/change order with the existing consultant CH2M Hill to complete an initial study for a new site not to exceed (NTE) $50,000 and work with a real estate consultant to review multiple potential sites.

Pros: Streamlines the process to complete preliminary engineering services for a new site while also utilizing existing budgeted funds. Engineering services would be performed by a consultant team already familiar with ICTC and the transit operations.

Cons: Engineering services would be limited to the existing consultant.

The ICTC Management Committee met on October 11, 2017 and forwarded this item to the Commission for review and approval after public comment, if any:

1. Proceeding with Option B:
   a. Authorizing the Executive Director to cease the pursuit of the Caltrans facility.

2. Proceeding with Option C:
   a. Authorizing the Executive Director to prepare a contract amendment/change order with the existing consultant (CH2M Hill) to complete an engineering analysis for a different potential transit maintenance and operations yard, with ICTC Administration building location from the existing project budget (Not To Exceed $50,000).
   b. Authorizing the Executive Director to engage a real estate consultant to look at multiple sites from the existing project budget.

A motion was made by Viegas-Walker and seconded by Plancarte, Motion carried unanimously.

Ms. Williams presented this item to the Commission.

In FY 2014-15 as directed by the Commission, ICTC completed two competitive bids focused on the consolidation of the five public dial-a-ride services: Brawley, Calexico, El Centro, Imperial and the West Shores. Previously, there were multiple operators under separate contracts with these agencies.

The five (5) agencies were interested in determining if greater efficiencies, better compliance with regulations and cost reductions could be achieved through the consolidation of the management, dispatch, reservationists, maintenance and marketing etc. under one turnkey
contractor with one administering agency. This process would be determined through a competitive bid, whereby one (1) operator may be offered a contract for all five services.

In February 2014, fourteen transportation providers were invited to submit written proposals for consideration for the service branded as IVT RIDE, and with logo colors of yellow, black and white. The providers were requested to submit one proposal for all five of the paratransit services for a five year contract, with three one-year extensions. The new contract would be administered by ICTC.

The participating public agencies would terminate their individual contracts during a scheduled transition effective in FY 2014-15. However for accountability, a new Paratransit Coordination Committee (PCC) would be created by which the participating public agencies would review system performance, make recommendations and retain the ability to be responsive to their constituents.

The IVT RIDE Request For Proposal (RFP) written by ICTC required several key issues be addressed in the proposals including compliance with the twenty-four mandatory functional areas in order to be eligible for federal transit funding, i.e., drug and alcohol testing, the Americans with Disabilities Act, performance measures, as well as, State requirements for driver training and offering employment to incumbent transit drivers and other personnel as necessary, local requirements for facilities, marketing, bilingual drivers and reservationists, and participation with the local agencies’ Offices of Emergency Services for emergency evacuation purposes etc.

Based on the results of the competitive bid process, it appeared that an opportunity to achieve greater efficiencies, better compliance with regulations, new technology for reservations/dispatching and performance management, and cost reductions could be achieved through the consolidation of the operations including; management, dispatch, reservationists, maintenance and marketing under one provider under one contract. Ultimately First Transit Inc. was selected as the most responsive provider.

Included in the service contract was the benefit of coordinated bilingual dispatching and a computerized reservation system, a fuel escalator for fuel prices that exceed the negotiated price per a gallon, a marketing and public outreach allowance (to be developed annually based on available funding per year), replacement of the any previous vehicles with fourteen (14) new, smaller and ramp equipped paratransit buses, in house maintenance support services and a dedicated management team.

ICTC procured the paratransit vehicles and service started in Brawley, Calexico, Imperial and the West Shores in FY 2014-15 with El Centro joining in FY 2016-17.

Data from the previous operators was not able to be verified related to passengers per day/hour etc. Therefore, service delivery began with the same service hours/days and fares as had been in operation under the previous City’s contracts. Shown below are the fares for each service area as follows:

- Brawley - $1.50
- Calexico - $1.00
- El Centro - $1.25
- Imperial - $1.75
- West Shores - $2.00

With the exception of the City of El Centro Service Area, service has been in operation for the demonstration period of three years. Staff have evaluated the services, the Paratransit
Coordination Committee (PCC) has met a minimum of twice annually in each of the three years and recommendations for service changes have been developed.

Attached are the system wide recommendations, as well as, specific recommendations for each service area. The triennial performance data is also attached for comparison.

After the recent review by the TDA Performance audit team, ICTC staff recommends that the service changes be implemented effective January 1, 2018, after a period of public notice. However, staff also recommend that any fare increases be deferred until a system wide fare study of all of the transit services can be completed during FY 2018-19.

The ICTC Management Committee met on October 11, 2017 and forwarded this item to the Commission for review and approval after public comment, if any:

1. Directed staff to implement the recommend changes to the service operations as of January 1, 2018 after public notice.
2. Directed staff to include the IVT RIDE services in a future system wide transit fare study.

A motion was made by Viegas-Walker and seconded by Pacheco, Motion carried unanimously.

D. CALIFORNIA TRANSIT SECURITY GRANT PROGRAM
—FY 2016-17
December 8, 2017

ICTC Management Committee
Imperial County Transportation Commission
1503 N. Imperial Ave. Suite 104
El Centro, CA 92243

SUBJECT: California Transit Security Grant Program FY 2016-17

Dear Committee Members:

The California Transit Security Grant Program (CTSGP) provides funds for use on a variety of transit capital improvement projects. These projects are designed to enhance security for transit systems and passengers. The program is administered by the State of California’s Governor’s Office of Homeland Security.

In previous years, ICTC has successfully applied for funding through this program for security cameras and lighting improvements to the Imperial Valley College Bus Transfer Terminal, solar lighting at the Brawley and Imperial Transfer Terminals and for security cameras on the larger Imperial Valley Transit (IVT) buses. For the FY 2016-17 funding, ICTC is seeking funding in an amount of $106,671.00 through this program to provide Advanced Vehicle Location (AVL) systems for the IVT 40-foot bus fleet. No matching funds are required.

The application process requires the submittal of a resolution from the Commission authorizing the Executive Director to act on behalf of the Commission.

It is requested that the ICTC Management Committee forward this item to the Commission for their review and approval after public comment, if any:

1. Approve the attached resolution authorizing the Executive Director or his designee to take any actions necessary on behalf of the ICTC for the purposes of obtaining FY 2016-17 financial assistance, provided by the Governor’s Office of Homeland Security under the California Transit Security Grant Program.

Sincerely,

MARK BAZA
Executive Director

V. REPORTS

A. ICTC EXECUTIVE DIRECTOR REPORT
B. SOUTHERN CALIFORNIA ASSOCIATION OF GOVERNMENTS REPORT
C. CALTRANS REPORTS
Memorandum

Date: December 5, 2017
To: ICTC Management Committee Meeting
From: Mark Baza, Executive Director
Re: Executive Director’s Report

The following is a summary of the Executive Director’s Report for the Management Committee / Commission Meeting(s) on December 13, 2017.

1) **Heber Bus Stop & Pedestrian Access Improvements on State Route 86:** The community of Heber has had a need to improve pedestrian and bus stop access along State Route 86. The ICTC Commission granted the use of Regional Set-Aside Local Transportation Account (LTA) funds for the project. Caltrans has served as the project lead; the first phase will begin in January and was just recently completed in November 2017. Phase 2 and 3 will begin in early Spring of 2018 with completion in Summer 2018. Community outreach will be necessary prior to initiating construction in Phase 2 and 3 as road closures and detours will be necessary.

2) **IVT RIDE:** ICTC and transit operator staff have started an evaluation and review process of the performance data for the first three years of operations. The review will focus primarily on the Brawley, Calexico, Imperial and Westshores areas, as the City of El Centro service did not begin until July 1, 2016. The Paratransit Coordinating Committee (PCC) met on March 13, 2017 to develop recommendations for service adjustments. Service adjustments are under development. Service adjustment recommendations were delivered to Management Committee and the Commission in October and service adjustments will be delivered beginning in January 2018.

3) **STUFF A BUS IVT Bus canned goods food collection program:** Passengers who brought a dry or canned food item to the bus for two weeks prior to Thanksgiving, were allowed one trip in exchange. IVT drivers collected approximately 1,397 lbs. of food items and with ICTC delivered it to the Food Bank. This is an approximate 48% increase in pounds from the prior year.

4) **Update to the 2011 Short Range Transit Plan (SRTP) Request for Proposals:** ICTC staff developed a Request for Proposals (RFP) that was released on September 1, 2017 to complete an update to the 2011 Short Range Transit Plan (SRTP). This is a planning document that identifies transit services and capital improvements over the next three to five year period, with expected available resources. The project unfolds over an approximately 12 month period. The goal is to have an updated report with bilingual public participation. A recommendation to award the contract is on the December agenda.

5) **Preparation of FTIP 2019:** The 2019 Federal Transportation Improvement Program (FTIP) Guidelines have been prepared to facilitate the work of the County Transportation Commissions (CTCs) (Imperial, Los Angeles, Orange, Riverside, San Bernardino and Ventura Counties), transit operators, and the State of California Department of Transportation Caltrans) in development of county Transportation Improvement Programs (TIPs) for inclusion in the Southern California Association of Governments (SCAG) 2019 FTIP. These
Guidelines assist in the development of the county TIPs that fulfill the legal, administrative and technical requirements prescribed by the law and which minimizes duplicate efforts by the CTCs, Caltrans, SCAG and/or other agencies. ICTC staff will reach out to cities and county staff to obtain project updates on all programmed 2019 FTIP projects. During the month of November, ICTC staff received project updates from member agencies. ICTC staff will be updating the 2019 FTIP database for all Imperial County projects. A recommendation to approve the resolution will be on the January 2018 agenda.

6) **Calexico West Port of Entry Traffic Management Study:** Caltrans authorized a special planning grant to perform a traffic management study to assist the City of Calexico and the Imperial Valley region to analyze and propose traffic management strategies and alternatives to serve traffic flow for the Calexico West Port of Entry expansion. The expansion will have two access points: One, from current access at SR-111/Imperial Ave.; and, a Second at Cesar Chavez Blvd and 2nd St. SCAG, Caltrans and ICTC will lead study in partnership with the City of Calexico, Customs and Border Protection and General Services Administration. The study is expected to proceed with a Request for Proposals in February 2018.

7) **Imperial Mexicali Binational Alliance Meeting:** The IMBA meeting was held on October 5, 2017 at the Carmen Durazo Cultural Arts Center in the City of Calexico. A presentation regarding the Calexico West/Mexicali I POE Expansion Project was conducted by the General Services Administration (GSA). An update was also presented by Caltrans regarding the State Route 98 Widening Project. In addition, Economic Development updates were presented. A strategic planning meeting was conducted on November 28, 2017, with IMBA MOU signees to review goals and projects for 2018. The next regular IMBA meeting is scheduled for January 11, 2018.

8) **State and Federal funding Obligations:** Beginning October 1, 2017, agencies are allowed to move forward with request for authorization (RFA) for Congestion Mitigation Air Quality (CMAQ), Regional Surface Transportation Program (RSTP) and Active Transportation Program (ATP) programmed in FY 2017/2018. A complete list of programmed projects will be provided as a separate attachment.

9) **California HERO Program**: The California Hero Program was launched in April 2014 in Imperial County with ICTC as the administering agency. Attached is a copy of the program activity report for November 2017.

10) **Partnerships with IVEDC**:

   a) **Southern Border Broadband Consortium**: ICTC in partnership with IVEDC received a California Advanced Services Regional Consortia Grant award of $450,000 from their Rural and Regional Consortia program. The grant will cover a 3-year period. ICTC will be the fiscal agent and is working on developing an MOU which will define roles and responsibilities (Audits, Administration and Project Management) for ICTC and IVEDC. Since award, IVEDC staff has been meeting monthly with Consortia members and other webinars toward development of strategies for providing Broadband services for underserved communities. **IVEDC has developed a schedule and Action Plan. The immediate next steps are to develop a schedule for workshops for underserved communities to be held here in Imperial Valley with a goal to provide broadband education and gather input through community needs surveys.**

   b) **The Brawley Transit Corridor Brownfield Assessment**: ICTC in partnership with IVEDC received a U.S. Environmental Protection Agency (EPA) Brownfields Communitywide Assessment Grant award of $300,000 from the Environmental Protection Agency’s Brownfields Assessment Program. This assessment will be focused along the transit circulator route within the 13 mile Imperial Valley Transit’s (IVTs) Brawley Gold Line Transit Route and the Brawley Transit Center that serves as the IVTs North Imperial County transfer terminal. The commercial corridors in the target assessment area include over 100 known commercial properties and suspected historical gas station sites with known or suspected underground tanks in the target area. ICTC will be the fiscal agent and is working on developing an MOU which will define roles and responsibilities (Audits, Administration and Project Management) for ICTC and IVEDC. **IVEDC staff recently attended an EPA conference that provided guidance for project implementation. ICTC and IVEDC are currently working to develop a Request for Proposals/State of Qualifications for qualified firms to carry out the study analysis.**

11) **State Route 86 (Northbound) Border Patrol Checkpoint**: In August 2017 following a year of coordination, Caltrans, the County of Imperial and ICTC met with CBP management and operations staff to achieve consensus for a new conceptual alternative prepared by Caltrans. The LTA Board met on September 27, 2017, staff presented the Board with a fund request for $1.3 million from the 5% Regional Highway Set-Aside from the Measure D allocations. The request was approved. Staff is working to schedule a meeting with Caltrans and CBP to finalize agreements and next steps.

12) **I-8 / Imperial Avenue Interchange Reconstruction**: On August 25, 2017, ICTC staff met with Caltrans District 11 staff to discuss the updated project details. The proposed project schedule will not be accelerated due to right of way delays. Caltrans staff recommends that the I-8 / Imperial Avenue project schedule for FY 2019/20 for construction. ICTC staff will continue to work with Caltrans staff to submit the 2018 State Transportation Improvement Plan by December 15, 2017.

13) **State Legislation for Transportation Funding – SB 1**: On August 24th ICTC staff hosted a TAC workgroup to discuss the upcoming expected actions to be undertaken by cities and county. The workshop discussed the Local Streets and Roads Program and the Local Partnership Program. Representatives from the cities and county were recommended to focus on the upcoming deadlines under the Local Streets and Roads Program. An estimate of Local Streets and Roads Program revenues were provided during the workshop. The estimates per agency included FY2017/2018 and FY2018/2019 Local Streets and Roads Program revenues. All cities and the county were responsible to submit a project list and an amended budget for FY2017/2018 to the
California Transportation Commission (CTC) by October 16, 2017. ICTC staff has received confirmation that all agencies submitted a project list for FY 2017/2018 to CTC.

$1.5 Billion annually will go to cities and counties for local road improvements. The following are projected annual revenues for the Cities and the County of Imperial for FY 2017/2018.

The 2018 Local Partnership Program is comprised of formulaic program and competitive programs. In FY2017/2018 total amount available statewide is $200M and distribution is 50/50 for both formulaic and competitive programs. The formulaic program share distributions for the Local Partnership Program were presented at the CTC meeting in December 6-7, 2017. During the meeting the CTC Commission took action and approved the distribution of funds for the formulaic portion, the funding share for Imperial County in FY2017/2018 and in FY2018/2019 is estimated at $538,000. According to the program guidelines and CTC staff, there is one time opportunity to rollover funds to the following fiscal year in order to maximize opportunity to use funds. Project applications for formulaic program are due December 15, 2017 to CTC. Applications for the competitive program are due January 30, 2018 to CTC. The following is the link to the 2018 Local Partnership Program guidelines:

14) **Active Transportation Program (ATP) Augmentation Planning Grant Opportunity:** As a part of Senate Bill (SB) 1, the 2017 Active Transportation Program (ATP) Augmentation is funded from the approximately $200 million allocated from the Road Maintenance and Rehabilitation Account to the ATP in fiscal years 2017-
18 and 2018-19. The Road Maintenance and Rehabilitation Account funds are state funds. Therefore, projects funded in the 2017 ATP Augmentation do not need to be federal-aid eligible. The initial programming capacity for the 2017 ATP Augmentation program is in fiscal years 2017-18 and 2018-19. Some fiscal year 2019-20 and 2020-21 programming capacity may become available as previously programmed projects request advancement into fiscal years 2017-18 and 2018-19.

The County of Imperial was awarded an ATP Augmentation Grant for sidewalk improvements on Rio Vista in the Community of Seeley. The grant is $369,000 with a local match of 1.2 million for a total project of $1.5 million.

15) SCAG’s Sustainability Grant Program – Imperial County Regional Climate Action Plan: ICTC was awarded a SCAG Sustainable Planning Grant to develop a Regional Climate Action Plan. ICTC staff will work in collaboration with SCAG staff to develop and release a request for proposal to select a consultant that will develop the Regional Climate Action Plan. ICTC will serve as the day to day project manager and SCAG staff will serve as the administrative project manager. The goal of the project is to develop a regional framework for addressing Green House Gas (GHG) emissions for a Regional Climate Action Plan that allows each local agency to customize and fit into the context of the community each jurisdiction serves, that can be used at the local level in the development of jurisdiction – specific Climate Action Plans (CAPs). ICTC staff is currently finalizing the scope of work language in collaboration with SCAG staff and plans to release a request for proposal at the beginning of 2018.

16) Calexico East Commercial Vehicle Port of Entry Expansion Project: ICTC submitted the Calexico East Commercial Vehicle Port of Entry Expansion Project under the California Sustainable Freight Action Plan: Pilot Project Ideas. The project is a proposed public-private partnership for the construction costs of the freight elements of the Calexico East Expansion that include: bridge expansion, commercial vehicle primary inspection booths and road construction totaling $65 million. ICTC is pursuing discretionary freight program funding for the bridge expansion for an estimated total cost of $28 million. Pending the possible funds for the bridge expansion, ICTC is pursuing a donation authority request to U.S. Customs and Border Protection. In October 2017, ICTC staff submitted a TIGER Grant proposal for the bridge expansion. With no assurances of grant award staff is coordinating with Caltrans to submit for grant funding under the State’s Freight funding available under SB-1 and the State’s share of the 2015 federal transportation bill (FAST Act).

17) Westshores Transit Opportunities: In Preparation for the Short Range Transit Plan, staff is exploring transit connection opportunities with Sunline Transit that serves the Coachella Valley region, and pursuing grant opportunities for interregional transit services to/from Westshores and Coachella. Together we will be pursuing available grant opportunities to provide service connections. Update - On Friday, May 19, 2017, ICTC and IVT RIDE staff held a 2nd transit service outreach at the Imperial Valley Food Bank’s distribution site in Westshores from 7:30 am – 9:30 am. ICTC staff met with SunLine staff in Palm Springs on June 2, 2017 to continue dialogue for potential opportunities.

18) Critical Rural Freight Corridors (CRFC) and Critical Urban Freight Corridors (CUFC): The Southern California Association of Government (SCAG) requested a CRFC and CUFC project nomination list from all Regional Transportation Planning Agency (RTPA). On January 10, 2017, ICTC reviewed the regional project list and submitted the following projects to SCAG:

19) **Regional Mobility Hubs Strategy for Imperial and San Diego:** This project funded by Caltrans will develop a Regional Mobility Hubs Implementation Plan for San Diego County and Imperial Valley. This project is led by SANDAG in collaboration with ICTC. The focus of the plan will be to develop recommended improvements, conceptual designs, and implementation strategies for different mobility hub station place types for both regions. Mobility hubs can help maximize the capital investment in transit services and support the emphasis on smart growth and transit-oriented development.

The Consultant has completed draft Mobility Hub Concept Designs for the intermodal facilities in the City of Brawley, Imperial Valley College and the City of El Centro. The consultant team has completed the contract work and SANDAG project team will be submitting the final report to ICTC and Caltrans by June 30, 2017. SANDAG project team is refining document design and using non-grant funding to carry out professional copyediting services on all public-facing documents. The final deliverables will be posted online Fall 2017.

Virginia Mendoza, Project Manager

20) **Community of Niland Bus Stop Bench and Shelter Request:** The ICTC submitted a formal request to the California Department of Transportation (Caltrans) District 11 requesting their assistance in identifying a location for a bus stop bench and shelter in the Community of Niland along State Route 111 (SR-111). Caltrans and ICTC are finalizing a preferred location and any improvements necessary for installation of the bench and shelter. Project is in design phase. Construction will begin and completed in late 2017.

21) **2016 Regional Transportation Plan (RTP)/Sustainable Communities Strategy (SCS), Amendment #1:** The Southern California Association of Governments (SCAG) has approved the regional 2016 RTP/SCS that has been accepted by the Air Resource Board. SCAG developed the RTP/SCS in collaboration with ICTC, other County Transportation Commissions, and local governments from the six county Southern California region through a bottoms-up, collaborative process. The RTP/SCS addresses many challenges including projected growth, changing demographics, climate change adaption, housing needs, and transportation demands.

SCAG has opened Amendment 1 of the 2016 RTP/SCS for any changes to existing projects or adding new projects. Projects listed in the RTP/SCS must be of regional significance and increase the road capacity. ICTC has received a request to submit 3 projects as part of Amendment 1. The amendments are necessary to our ability to fund and complete these projects if funding is made available. At their January 5th meeting SCAG Regional Council approved the release of the draft amendment for 30 day public review.

22) **Funding for Phase II of the Calexico West Port of Entry Project in the President’s FY17 Budget – Press Release (Summary):** (February 9, 2016) – Rep. Juan Vargas (CA-51) announced the inclusion of $248 million for the Calexico West Land Port of Entry (LPOE) reconfiguration and expansion project in the Fiscal Year (FY) 2017 budget released today. "If approved, the funding would be sufficient to complete the project.” As previously noted, Congress authorized $98 million for Phase 1. The U.S. General Services Administration (GSA) began construction for Phase 1 in December 2015 with completion scheduled for March 2018. Phase II funding is pending Congressional approval.
As part of the POE Expansion project, traffic will be rerouted from the existing roadways to SR-98 and Cesar Chavez Boulevard which are not designed to handle the high volumes of traffic associated with the border travel. The City of Calexico is finalizing their right of way acquisition for widening Cesar Chavez Boulevard; however, the city has faced a challenge and will need to amend the project’s CEQA document that will result in a 3 to 4 month delay. Caltrans has initiated construction for widening SR-98 for more details on the project, refer to Caltrans report. Caltrans is currently scheduled for completion in March 2018 to coincide with GSA’s Phase 1 completion of the Port expansion.

23) **California-Baja California Binational Region**: A Fresh Look at Impacts of Border Delays: Building upon previous Caltrans, SANDAG, and ICTC studies, this project will refine the economic models developed to assess economic impacts of delays at the land ports of entry (POEs) between the San Diego and Imperial Counties region and Baja California, Mexico, on the border region economies. It will also estimate greenhouse gas (GHG) emissions of passenger and commercial vehicles due to northbound and southbound border delays at the six California POEs, and propose strategies to reduce GHG emissions at the border region. Lastly, extensive outreach to government agencies, local border communities, and private sector stakeholders will be conducted. Extensive data collection and modeling work has been conducted on these areas by ICTC, SANDAG and other agencies, this project will build upon that work. The consultant team is completing the development of the survey instrument that will be used in all 6 POEs.

24) **Meetings attended on behalf of ICTC:**

- October 26, 2017 – League of California Cities Imperial County Division Meeting in Calexico, CA
- October 30-31, 2017 – 2017 Focus on the Future Conference in San Francisco, CA
- November 2, 2017 – SCAG Regional Council Meeting in Los Angeles

The following is the California Department of Transportation, District 11 report for the Imperial County Transportation Commission (ICTC) Management Committee meeting of December 13, 2017:

1. **Project Updates:**

   Please see maps at end of report for project level detail.

2. **Construction:**

   **Interstate 8 (I-8) Continuously Reinforced Concrete Pavement Project**

   Interstate 8 (I-8) Continuously Reinforced Concrete Pavement Project is divided into the following 5 segments. Completion of the entire project is scheduled for 2019.

   - **Segment 1**, is near El Centro from 0.6 mile west of Anderholt Road overcrossing to 0.5 mile east of the East Highline Canal Bridge. It was awarded to Coffman Specialties, Inc. on November 18, 2015. Construction began the first week of February 2016. Both westbound and eastbound I-8 traffic are using the newly constructed freeway. This project is complete, several months ahead of schedule.

   - **Segment 2**, which is located 26 miles east of El Centro from west of SR-98/I-8 separation to east of the All American Canal, was awarded to Coffman Specialties, Inc., on December 15, 2015. Construction began in early March 2016. Both westbound and eastbound I-8 traffic are using the newly constructed freeway. This project is complete, several months ahead of schedule.
Construction (continued):

- **Segment 3**, near Winterhaven from west of the SR-186/I-8 separation to east of Fourth Avenue overcrossing, was awarded to Security Paving Company, Inc., on December 22, 2015. Construction began mid-March 2016 with all major work now completed. Both westbound and eastbound I-8 traffic are using the newly constructed freeway. This project is complete.

- **Segment 4**, is divided into two sections located near El Centro from west of I-8/SR-111 separation to just west of Anderholt Road overcrossing and from east of the East Highline Canal Bridge to west of the I-8/SR-98 separation. This segment began construction on July 10, 2017. Traffic will be reduced to one lane in each direction on the five-mile section of I-8 from west of SR-111 to just east of Barbara Worth Drive in early 2018.

- **Segment 5**, is located near Winterhaven from west of Ogilby Road overcrossing west of the I-8/SR-186 separation. This seven-mile segment began construction the week of June 12, 2017. Both travel directions have been switched to the I-8 eastbound lanes divided by k-rail, reducing traffic to one lane in each direction. In addition, the westbound on- and off-ramps at Ogilby Road (Exit 159) are closed to traffic. Traffic will be switched to I-8 westbound in early 2018.

**I-8/Dogwood Road**

The I-8/Dogwood Road interchange project is completed and all lanes are open to traffic. The installation of decorative fencing is expected to be complete by mid-December 2017.

**I-8/Dogwood Road Landscape Project**

The follow-up landscape project has been completed with plant establishment continuing.

**SR-98 / Cesar Chavez Widening Project**

Contract approval was received in January 2017, with construction on the $12.9 million project beginning in April 2017 and ending in spring 2018. Utility relocation work is complete. Construction on Stage 1 from Eady Avenue to VV Williams is complete. Stage 2 and 3 work from VV Williams to Cesar Chavez is complete.

Stage 4 (Final stage) is currently under construction. All lanes on SR-98 from Cesar Chavez Boulevard to Ollie Avenue are expected to be opened by December 25, 2017.

**SR-86/Heber Pedestrian Improvements**

This project will construct sidewalks and a bus shelter. Construction on Phase 1 is complete. Design is complete for the remaining phases and should be in construction in early 2018. This project is a coordinated effort between Caltrans and ICTC.
**Construction (continued):**

**SR-111/Main Street in Niland**

This project will install a bus stop and shelter in an existing parking lot on the east side of SR-111. The project has been approved and the contractor expects the manufacturing of the shelter to take two months. Construction will begin after receiving the shelter.

3. **Traffic Operations:**

**SR-86/Customs & Border Protection Checkpoint Expansion**

Caltrans recently provided a design alternative with cost estimate to ICTC. The design will allow for two lanes for use by the Border Patrol under a newly constructed canopy to be placed over SR-86, and two lanes of secondary inspection during peak periods, which should reduce or eliminate queuing of traffic during these time periods.

This concept was discussed with the County of Imperial, and then presented to the ICTC Commission who approved the allocation for funding in the amount of $1.3 million. Funds will be allocated from the LTA 5% Regional Highway Set-Aside (Measure D) allocations. The Board authorized their Executive Director to execute the necessary agreements between Caltrans, the Imperial County Local Transportation Authority, and Customs and Border Protection.

The schedule for this project is being developed by Caltrans.

**SR-86/Keystone Road**

The project included installing roadside signs at SR-86 and Keystone Road and relocating flashing beacons. This work was completed in late November 2017.

**SR-98/Birch Street**

Caltrans Highway Operations is currently working on a Traffic Investigation Report (TIR) that will recommend to remove school zone related signs from the speed feedback posts. In addition, the speed feedback signs will be reset to a 24 hour schedule upon completion of the TIR.

**Signage on Interstate 8 Directing Trucks to State Route 7:**

The TIR to install signs to direct trucks to use SR-7 on I-8 and SR-111 was approved on November 27, 2017. Per the approved TIR, guide signs to direct trucks to use SR-7 will be installed on eastbound I-8 prior to SR-98 and SR-111. An additional guide sign will be installed on southbound SR-111 to direct trucks to use east I-8 to south SR-7, for a total of three guide signs. No additional guide signs will be installed on westbound I-8 as there are existing guide signs to direct trucks to use SR-7 for border crossing prior to the I-8/SR-7 connector. The proposed signs have been sent to Operations Planning Support on November 30, 2017 to process the sign order.
4. **Planning:**

**Senate Bill 1 – New Grant Opportunities:**

Caltrans launched two new planning grant programs with funding from Senate Bill 1, the Road Repair & Accountability Act of 2017. The new planning grant funds include:

- $25 million annually for Sustainable Communities Grants to encourage local and regional planning that further state goals, including, but not limited to, the goals and best practices cited in the regional transportation plan guidelines adopted by the California Transportation Commission.
- $20 million over three years for Adaptation Planning Grants to local and regional agencies for climate change adaptation planning.

The next call for grants is scheduled for January 2, 2018, with applications due on February 23, 2018.

The Adaptation Planning Grants call for grant applications is anticipated to be in January 2018. These SB1 planning funds are in addition to the FY 2018/2019 Sustainable Transportation Planning Grants which are also expected to have a call for applications in January 2018. This category will have $20 million over three years available statewide.

**Coordinated Efforts:**

The next meeting to discuss traffic issues related to the Calexico West Port of Entry expansion is scheduled for January 2018.

In addition, Caltrans has been awarded a grant from the Federal Highways Administration (FHWA) State Planning & Research funds, with an 80/20 in-kind match by the Imperial County Transportation Commission (ICTC) to fund a $100,000 Traffic Circulation Plan (TCP) for access to the Calexico West Port of Entry (POE).

This effort will have a two-phase approach. Phase one will address access for opening day traffic conditions. Phase two will provide further analysis and recommendations for potential traffic shifts for the 60-90 day period beyond opening day conditions. Caltrans is working with SCAG and ICTC to procure consultant services which is expected to be complete by the end of February 2018.

The Calexico West POE is scheduled to be complete in March 2018; with both northbound and southbound traffic flows becoming operational in Summer 2018. Opening of the POE will require the City of Calexico to make necessary improvements to Cesar Chavez Boulevard which will serve as future access to the POE. Caltrans and the City of Calexico

will work cooperatively with other local and regional partners to identify other traffic improvements and changes which may be required by changing patterns. Additionally, while Mexico has completed their roadway improvements; their federal customs facility remains to be constructed.

The TCP will provide analysis for the above issues, as well as coordinated efforts for circulation, traffic control, emergency services, and impacts to transit routes. The analysis is expected to take ten months to complete.

The TCP will be fully vetted by all involved agencies and stakeholders. A final report and plan will be presented to the ICTC Management & Commission, as well as the City of Calexico. Significant involvement by federal, state and local agencies will be made to ensure consensus and approval.

Grants Underway:

A Fresh Look at Impacts of Border Delays at CA/BC POEs

In May 2016, the San Diego Association of Governments received two Caltrans grants for a total of $670,000 to study the Effects of Border Wait Times on the Economy and Air Quality/Climate Change Emissions. This is a cooperative effort between SANDAG, ICTC and Caltrans under contract with HDR.

a. The Economic Impacts of Border Delays will update and enhance previous studies to estimate the effects of delays at the San Diego and Imperial Counties Ports of Entry (POEs) on the regional, statewide, and national economies of the United States and Mexico.

b. The Air Quality and Climate effects of Border Wait Times will develop a methodology to estimate air quality pollution and greenhouse gas emissions due to vehicular delays to cross the San Diego and Imperial Counties POEs.

c. The consultant will be modeling the economic delay for 2025 and the air quality for 2025 and 2035 respectively.

d. The data has been collected and the cross border business interviews are almost completed. The consultants are working on the model development component of the grant at this point. The consultants developed a white paper on available technology that could provide on-going border wait times data collection. It would be up to the Federal Government to decide what technology may work best at these POEs.

e. New Accomplishments

The amended Project Implementation Order has been approved that will extend the Air Quality portion of the study to April 30, 2018.
Planning (Continued):

The Consultants are working with CBP to give the collected data a “reasonableness check”.

Another cross border business interview has been completed.

The EPA Moves model will be used as the emissions model for Mexican cars, as Mexican car data is available in that format.

Imperial County Transportation Model Update

The Project Team held monthly coordination meetings on the project status, actions taken, and next steps. The last two meetings addressed issues from traffic analysis zones (TAZs) updates and refinement, centroid connector editing, highway network adjustment including extra node additions based on review and comments provided by Caltrans/D11, to traffic counts analysis following the field study which was completed by Traffic Research & Analysis, Inc. in early July. Next, SCAG will be working on the social, economic and demographic (SED) data forecasting in a zonal basis for future years, and the consultant is ready to move into base-year model calibration.

Upcoming Grant Projects

Imperial County Active Transportation Plan

Caltrans Planning recently met with the County of Imperial Public Works Department and held a kick-off meeting for this $200,000 Planning Grant.

The plan will cover the unincorporated areas of Imperial County, specifically the Communities and Townsites; and areas near schools. The plan will be based on needs assessment through data gathering and analysis, public feedback, and consultation with local agencies.

The study will address issues such as safety and security, liability, environmental concerns, convenience, accessibility, usage, connections and linkages for bicycle users, as well as associated pedestrians and safe routes to school planning efforts.

Requests for Proposals (RFPs) have been received, reviewed and interviews held with consultant selection finalized. Final contract negotiations are underway and it is anticipated that project kickoff will be before the end of 2017, with the Plan being complete by early 2019.
5. **Maintenance:**

A specialized micro-surfacing project on all the ramps at I-8/Dogwood Road was completed on the weekend of November 3rd to 5th at night to allow the Imperial Valley Mall access to be unaffected during daytime hours. This surfacing increases the durability and provides preservation of the pavement surface for over five years.
6. **Local Assistance:**

**Inactive Projects**

A. UTN PUBLIC HEARING FOR FISCAL YEAR 2018-19
December 8, 2017

ICTC Management Committee
Imperial County Transportation Commission
1503 N. Imperial Ave. Suite 104
El Centro, Ca. 92243

SUBJECT: Unmet Transit Needs Public Hearing - for Fiscal Year 2018-19

Dear Committee Members:

Section 99401.5 of the Public Utilities Code states that:

"The Transportation Planning Agency (TPA) shall hold at least one public hearing pursuant to 99238.5, for the purpose of soliciting comments on the Unmet Transit Needs that may exist within the jurisdiction."

Unmet Transit Needs that are determined to be “Reasonable to Meet” by ICTC may be established by providing transit services directly, by contracting for new transit services, or the expansion of existing services. In addition, consultant studies are also conducted when practical to evaluate options or complete evaluations.

In the recent past, these Public Hearings have been held in the January - March time frame at the IID Board Chambers in El Centro, at approximately 3:00PM. ICTC is required to select the Hearing Panel from the elected official members of the Commission. It has been customary to appoint five members with two alternates. Typically, two members from the County are selected, with three City representatives. The alternates are also from the Cities.

The Panel meets twice, once for the actual hearing and then reconvenes approximately one month later to review testimony and adopt the “Findings” or actions to be implemented in the subsequent fiscal year. The date of the second meeting is determined by the panel members during the preliminary meeting. ICTC staff issue the public notices and coordinates administrative arrangements, which includes bilingual translation.

Last year the panel members were:

George Nava Councilmember, City of Brawley, Chairman
Larry Ritchie Councilmember, City of Westmorland
Cheryl Viegas-Walker Councilmember, City of El Centro

CITIES OF BRAWLEY, CALEXICO, CALIPATRIA, EL CENTRO, HOLTVILLE, IMPERIAL, WESTMORLAND, IMPERIAL IRRIGATION DISTRICT AND COUNTY OF IMPERIAL

T: Projects\ICTC\UTN 19P MC
A Thursday afternoon or evening hearing is recommended, as there are typically no regularly scheduled City Council Board meetings; and the public is generally able to attend.

In addition, it was noted by a recent TDA performance auditor that ICTC should reaffirm and adopt the definition of “Unmet Transit Needs” and “Reasonable to Meet” (see attachment).

It is requested that ICTC Management Committee forward this item to the Commission for review and approval after public comment, if any:

1. Appoint the Unmet Transit Needs Hearing Panel: two members from the County, three City representatives with two City alternates.

2. Select a Public Hearing date of February 1 or February 22, 2018 and the set the time of the hearing.

3. Direct staff to conduct the administrative arrangements.

4. Adopt the definition of “Unmet Transit Needs” and “Reasonable to Meet” as published and utilized by the Executive Committee of the Southern California Association of Governments (SCAG) in 1981 and the Imperial Valley Association of Governments (IVAG) in 1992.

5. Authorize the Executive Director or his designee to sign the allocation disbursement instructions.

6. Authorize ICTC staff to process the TDA clams in accordance with regulations.

Sincerely,

MARK BAZA
Executive Director

B. GOALS AND OBJECTIVES FOR THE FY 2017-18 SRTP
December 8, 2017

ICTC Management Committee
Imperial County Transportation Commission
1503 N Imperial Ave., Suite 104
El Centro, Ca. 92243

SUBJECT: Goals and Objectives for the FY 2017-18 Short Range Transit Plan (SRTP)

Dear Committee Members:

The Commission will soon undergo a short range planning process for transit services. The previous SRTP was developed and adopted in 2011. Prior to that, the SRTP was completed in 2004. The SRTP is a planning effort that will take approximately 12 months, with the final product scheduled to be presented to the Commission for approval in November 2018.

The process includes a review of our communities and existing services; the existing level of service provided; the potential for new services; and, a forecast of anticipated revenues. The consultant team will also conduct a peer review; and, spend time reviewing circulation and development plans, trip generators and performance data. The team will also conduct bilingual workshops and interact with member agency staff to develop recommendations.

The 2011 SRTP (243 pages) contains several key elements that should be reviewed prior to the start of the FY 2017-18 SRTP. This review and any subsequent direction will provide guidance for the consultant’s work effort. The following is the direction given for the goals and objectives of the 2011 SRTP.

As described in the attachment from Section 1.1, Pages 1-1 to 1-2 of the 2011 SRTP:

"...the goals of the transit system, based on those adopted in the 2004 SRTP, are outlined below. These goals may be adjusted through this SRTP process. One potential new goal would be to attract choice riders and not only the transit dependent; however, if choice riders are to be pursued, implications such as some shifting of planning and resources away from the transit dependent to those with other mobility options must be acknowledged.

CITIES OF BRAWLEY, CALEXICO, CALIPATRIA, EL CENTRO, HOLTVILLE, IMPERIAL, WESTMORLAND, IMPERIAL IRRIGATION DISTRICT AND COUNTY OF IMPERIAL
The existing (2011) goals are as follows:

1. Provide mobility to all residents of Imperial County. Service levels are determined by demand, with all areas receiving service but those with more demand for transit receiving more service.
2. Connect residents of Imperial County with medical, social service and educational facilities throughout the County.
   a. Resources should be deployed with the following priorities (ranked 1-4):
      (1) access to major medical, (2) access to social services facilities, (3) access to educational facilities, (4) access to employment.
   b. Support economic development such as commercial centers, retail and entertainment destinations.
   c. Provision of transit as a transportation alternative for the general public.

In order to move toward these goals for ICTC’s transit system, this study should work to:

1. Maximize the efficiency of the system by deploying appropriate resources to areas where they are needed most.
   a. Reduce crowding and increase frequency in denser areas where appropriate
   b. Provide an appropriate amount of service for rural areas
   c. Encourage coordination between all services, including cross-training between agencies (including those that are competitors) and the ability to cover service for other providers
   d. Eliminate duplicate services

2. Maximize usage of the system by serving all major trip generators and ensuring passengers can make the necessary connections to reach those destinations. ...

It is requested that the ICTC Management Committee forward this item to the ICTC Commission for their review and approval to re-affirm the goals and/or provide direction to staff for any changes after the receipt of public comment.

1. To reaffirm the Goals from the 2011 Short Range Transit Plan, as the guiding principles for the development of the FY 2017-18 Short Range Transit Plan.

Sincerely,

MARK BAZA

1.0 DEVELOPMENT OF GOALS/OBJECTIVES AND STANDARDS/GUIDELINES

This chapter outlines goals for the Imperial County Transportation Commission's (ICTC) transit system and objectives for this Short Range Transit Plan, as well as outlines standards and guidelines for the transit system and evaluates the existing services against them. Service standards and guidelines are presented separately for ICTC's fixed route services (IV Transit) and demand response services (AIM Transit/IVT Access, Med-Express, Dial-a-Ride services). For the purpose of this study, standards represent those requirements stipulated in the operating contracts for each service while guidelines represent appropriate goals considering the level and type of service provided.

1.1 Goals and Objectives

This section identifies goals and objectives for ICTC transit services going forward. Based on the 2004 Short Range Transit Plan (SRTP), "the mission of Imperial County's public transit system is to improve the quality of life for the residents of Imperial County through a coordinated, accessible, affordable and efficient countywide transportation system." Similarly, the vision statement is that "the transit network provides safe, affordable and reliable transportation service that first meets the needs of the transit dependent in communities within Imperial County by providing access to healthcare, education, employment, public services, shopping and recreational facilities, and eventually allows anyone to go anywhere in the region easily and effectively."

Overall, the goals of the transit system, based on those adopted in the 2004 SRTP, are outlined below. These goals may be adjusted through this SRTP process. One potential new goal would be to attract choice riders and not only the transit dependent; however, if choice riders are to be pursued, implications such as some shifting of planning and resources away from the transit dependent to those with other mobility options must be acknowledged. The existing goals are as follows:

1. Provide mobility to all residents of Imperial County. Service levels are determined by demand, with all areas receiving service but those with more demand for transit receiving more service.

2. Connect residents of Imperial County with medical, social service and educational facilities throughout the county.
   a. Resources should be deployed with the following priorities (ranked 1–4): (1) access to major medical and social services facilities, (2) access to educational facilities, (4) access to employment.
   b. Support economic development such as commercial centers, retail and entertainment destinations.
c. Provision of transit as a transportation alternative for the general public.

In order to move toward these goals for ICTC’s transit system, this study should work to:

1. Maximize the efficiency of the system by deploying appropriate resources to areas where they are needed most.
   a. Reduce crowding and increase frequency in denser areas where appropriate
   b. Provide an appropriate amount of service for rural areas
   c. Encourage coordination between all services, including cross-training between agencies (including those that are competitors) and the ability to cover service for other providers
   d. Eliminate duplicate services

2. Maximize usage of the system by serving all major trip generators and ensuring passengers can make the necessary connections to reach those destinations.
C. SRTP FOR THE ICTC—FY 2017-18
December 8, 2017

ICTC Management Committee
Imperial County Transportation Commission
1503 N Imperial Ave., Suite 104
El Centro, Ca. 92243

SUBJECT: Short Range Transit Plan (SRTP) for the Imperial County Transportation Commission – FY 2017-18

Dear Committee Members:

Transportation Planning Agencies typically conduct a short range and a long range planning process for transit services. The most recent SRTP was developed and adopted in 2011. There have been several changes and updates to services and the communities served since that time frame. As a response, the Commission approved the work effort and budget for a new SRTP in the FY 2017-18 Overall Work Program and Budget.

The SRTP is a planning effort that will take approximately 12 months with the final product expected to be due back for Commission approval in approximately November 2018. The process includes the review of existing services and communities, with the level of service provided, the potential for new services and forecasts of anticipated revenues. The consultant team will also conduct a peer review, spend time reviewing circulation and development plans, trip generators and performance data. The team will also conduct bilingual workshops and interact with member agency staff to develop recommendations.

Several of the specific study areas included in the scope of work include, but are not limited to:

a. Review of continued applicability of yet to be implemented recommendations in prior 2011 SRTP
b. Expansion of service of the existing IVT intra-city circulators; IVT Blue, Green and Gold service on Saturdays and Sundays
c. Expansion of the existing IVT services beyond the Primary Service Corridor on Sundays i.e. Westmorland, Calipatria and Niland
d. Operating IVT services on a limited schedule on federal holidays

CITIES OF BRAWLEY, CALEXICO, CALIPATRIA, EL CENTRO, HOLTVILLE, IMPERIAL, WESTMORLAND, IMPERIAL IRRIGATION DISTRICT AND COUNTY OF IMPERIAL
e. Feasibility of continuation of the existing limited transit service in the West Shores of the Salton City Area, and potential connections to the Indio/Coachella area in Riverside County including connections to medical facilities

f. Expansion for limited days of the week of IVT RIDE intra-city service within to the Cities of Calipatria, Holtville and the community of Heber

g. Review of the effects of the revised ADA Certification and Eligibility process implemented January 2017 for IVT Access

h. Expansion of IVC Express services to and from Imperial Valley College (IVC) in the later afternoon and evening hours

A Request for Proposal was circulated in October for a suitable consultant team. A proposal review team consisting of ICTC, Caltrans, SCAG staff and a representative of the Social Services Transportation Advisory Council (SSTAC) scored and ranked the proposals. The firms were then called back for oral interviews conducted on October 24th 2017.

The final ranking listed below was based on technical qualifications, prior experience, methodology, staff qualifications and price/best value. The ranking is listed as follows:

<table>
<thead>
<tr>
<th>NAME</th>
<th>RANKING</th>
<th>PRICE</th>
<th>Cost/ Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>AECOM</td>
<td>1</td>
<td>$147,985</td>

<td>$158.52</td>
</tr>
<tr>
<td>Boyle/AMMA</td>
<td>4</td>
<td>$149,991</td>
<td>$152.28</td>

</tbody>

All of the firms are capable of completing the project. However, AECOM demonstrated a familiarity with the operating conditions and a vastly superior bilingual public outreach plan, for gathering information from the passenger ridership and various demographic groups.

The original procurement documents; request for proposal and proposals; and, all contract exhibits referenced in the contract document are available for review at the ICTC administrative offices by request.

The cost for this project at $150,000 was identified and approved in the ICTC FY 2017-18 OWP and budget (7416001-525010).
