6. **California HERO Program:** The California Hero Program was launched in April 2014 in Imperial County with ICTC as the administering agency. Attached is a copy of the program activity report through April 31, 2016.

7. **Imperial County Regional Safe Routes to School (SRTS) Projects:** ICTC had a productive meeting with the Imperial County Office of Education (ICOE) regarding the Regional SRTS Master Plan. ICOE
also requested commission representatives present the plan to the regular meeting of all the county superintendents, which took place on Tuesday April 19, 2016. The city managers and county representatives were invited to the meeting as well to hear any comments from respective superintendents. Those in attendance were all very receptive to submitting projects under the ATP program Cycle 3. ICOE was encouraged to submit small non-infrastructure applications in order to possibly fill gaps under the regional funding call for projects administered by ICTC.

8. The following are the FY 2015-16 Congestion Mitigation Air Quality (CMAQ) and Regional Surface Transportation Program (RSTP) list of projects. The table describes the status of projects and their planned request for allocations (RFA). *It is recommended that RFA should be submitted prior to May of the FY.

9. Federal Triennial Review: Every three years, the Federal Transit Administration (FTA) conducts an intensive review of practices and procedures to determine compliance with twenty-one (21) areas for the continued use of federal transit grant funding. The FTA review team visited ICTC on February 9th and 10th, 2016. The FTA review team visited transfer terminals and the bus operations yard, and talked with staff from ICTC, Brawley, Imperial and El Centro and Imperial Valley Transit (IVT). The final draft report is anticipated within 30 days. The review was comprehensive and positive feedback was received on meeting many of the programmatic requirements, with minor direction for improvements.

10. Funding for Phase II of the Calexico West Port of Entry Project in the President’s FY17 Budget – Press Release (Summary): (February 9, 2016) – Rep. Juan Vargas (CA-51) announced the inclusion of $248 million for the Calexico West Land Port of Entry (LPOE) reconfiguration and expansion project in the Fiscal Year (FY) 2017 budget released today. If approved, the funding would be sufficient to complete the project.” As previously noted, Congress authorized $98 million for Phase 1. The U.S. General Services Administration (GSA) began construction for Phase 1 in December 2015 with completion scheduled for January 2018.

As part of the POE Expansion project, traffic will be rerouted from the existing roadways to SR-98 and Cesar Chavez Boulevard which are not designed to handle the high volumes of traffic associated with the border travel. As result, ICTC submitted a 2016 TIGER grant in the amount of $12,046,400 to improve SR-98 and Cesar Chavez Boulevard. Improvements will include widening, signalization, channelization, lighting, pedestrian/bicycle and ADA improvements. The TIGER grant application was submitted on April 29, 2016.

11. State Route 86 (Northbound) Border Patrol Checkpoint: ICTC has initiated discussions with management and staff with Customs and Border Protections (CBP) Border Patrol regarding the potential to add a second inspection lane at this very busy checkpoint. Coordination efforts will follow with Border
12. **ICTC High Desert Pathways to Commercialization Project:** The joint grant funded transit vehicle procurement project with Antelope Valley Transit Authority (AVTA) under the Air Resources Board Zero Emission Bus and Truck Commercialization Project was not selected for funding under the program. The proposal would have funded the purchase of 6 electric buses to be used on the IVT intracity circulator bus routes. ICTC will continue to explore ways to fund zero-emission or electric bus technologies in the future. The State of California is moving towards requiring all public transit fleets be zero-emission vehicles in order to meet the future emission reduction target goals for the state. David Salgado, Project Manager.

13. **Imperial County Transportation Commission Unmet Transit Needs (UTN) Hearing:** The results of the ICTC UTN process were approved at the April 27, 2016 ICTC meeting. Staff will be forwarding the submittal to Caltrans for final approval.

14. **Calexico East Commercial Vehicle Port of Entry Expansion Project:** ICTC submitted the Calexico East Commercial Vehicle Port of Entry Expansion Project under the California Sustainable Freight Action Plan: Pilot Project Ideas. The project is a proposed public-private partnership for the construction costs of the freight elements of the Calexico East Expansion that include: bridge expansion, commercial vehicle primary inspection booths and road construction totaling $30 million. The California Environmental Protection Agency Air Resources Board has reviewed the project ideas submitted and presented pilot project concepts at the Sustainable Freight Action Plan workshop held on February 1, 2016. The concepts presented in the workshop included “Advanced Technology Truck Fast Lane (Border)”. Additionally in December 2015, Safer Community Foundation, Inc. in partnership with the County of Imperial and ICTC submitted the expansion proposal to Customs and Border Protection through their “559 Donation Authority.” In addition to the Sustainable Freight Action Plan submittal, ICTC also submitted a FASTLane grant application on April 14, 2016 and a 2016 TIGER program on April 29, 2016.

15. **IVT RIDE Update:** The IVT Ride El Centro Service Area operations contract was approved at the April 27, 2016 ICTC regular Commission meeting. Service is scheduled to begin on July 1, 2016. Public Outreach workshops are currently scheduled for:
   - Thursday, May 26th, 9:00 a.m. to 12:00 p.m. at the El Centro Community Center – 385 S. 1st St.
   - Friday May 27th, 9:00 a.m. to 12:00 p.m. at the El Centro Public Library – 1140 N. Imperial Ave.
   - Thursday June 16th, 9:00 a.m. to 12:00 p.m. at the El Centro Day Out Adult Center – 757 Main St.
   - Friday June 17th, 9:00 a.m. to 12:00 p.m. (location to be determined)
   - Thursday July 7th, 9:00 a.m. to 12:00 p.m. (location to be determined)
   - Friday June 8th, 9:00 a.m. to 12:00 p.m. (location to be determined)

16. **IVT MedTrans Update:** The IVT MedTrans operations contract was approved at the April 27, 2016 at the ICTC regular Commission Meeting. Service is scheduled to begin on July 1, 2016. We have a local phone number along with a toll free phone number confirmed for the IVT MedTrans service. Staff is working closely with Conveyor on a branding and marketing plan.

17. **Transit Vehicle Procurement Update:** ICTC has received all 6 new cutaway vehicles to be operated on the smaller IVT fixed route services such as Holtville and Seeley. Currently the bus vehicle vendor is completing an order for 20 more vehicles. 11 of those vehicles will replace the IVT ACCESS paratransit service vehicles. Another 4 cutaway buses will be utilized on the IVT MedTrans service to begin July 1, 2016. Those vehicles listed previously are scheduled for delivery by mid-May 2016. Another 5 vehicles have been procured for the IVT RIDE contract El Centro operating service area. Those vehicles are “low-floor” cutaway vehicles which take longer to produce. The receipt of the vehicles should take place over the coming months with project completion scheduled for August 2016. Delivery schedules for vehicles will not affect any service operations or start-ups.

Patrol, Caltrans and the region to determine feasibility, costs and funding of required improvements within Caltrans right-of-way.
18. **Regional Mobility Hubs Strategy for Imperial and San Diego**: This project funded by Caltrans will develop a Regional Mobility Hubs Implementation Plan for San Diego County and Imperial Valley. This project will be led by SANDAG in collaboration with ICTC. The focus of the plan will be to develop recommended improvements, conceptual designs, and implementation strategies for different mobility hub station place types for both regions. Consultant work is underway with preparation for a full range of stakeholder outreach. Virginia Mendoza, Project Manager

Mobility hubs provide an integrated suite of transportation services, supporting amenities, and urban design enhancements that reduce the need for single occupant vehicle trips by increasing first mile/last mile access to high-frequency transit stations. Mobility hubs are places of connectivity where different modes of transportation – walking, biking, ridesharing, and public transit – come together seamlessly at concentrations of employment, housing, shopping, and/or recreation. Hub features can include: bikeshare, carshare, neighborhood electric vehicles, bike parking, dynamic parking management strategies, real-time traveler information, real-time ridesharing, demand based shuttle or jitney services, bicycle and pedestrian facility improvements, wayfinding, urban design enhancements, and supporting systems like mobile applications, electric vehicle charging, smart intersections, and a universal payment system to make it easy to access a wide range of travel.

Mobility hubs can help maximize the capital investment in transit services and support the emphasis on smart growth and transit-oriented development. The project and Consultant team hosted an agency workshop in Imperial County on December 2, 2015. The meeting covered the study purpose, roundtable discussion of criteria for locating mobility hubs, amenity priorities, and what are potential locations. The Consultant team is planning a public outreach event at the end of May/early June 2016 at the Brawley Transfer Terminal, IVC, and El Centro Transfer Terminal.

19. **The San Diego State University / Imperial Valley College Transit Shuttle Analysis**: The Transit Shuttle Analysis will assess the feasibility of an inter-college shuttle service in Imperial County. ICTC and SCAG staffs worked together with Imperial Valley College and San Diego State University staff to complete the consultant selection process. SCAG staff completed the contract agreement with the selected consultant AECOM. Student surveys and campus workshops at SDSU-Calexico and IVC were held on Wednesday, November 18, 2015 and Thursday, November 19, 2015. The existing conditions analysis has been completed. The 3rd Technical Advisory Committee (TAC) meeting was held on April 19, 2016 at the ICTC office to discuss the draft route alternatives and next steps. In addition to the TAC meeting on April 19th, the consultant team conducted the 2nd round of outreach at SDSU-Calexico, IVC and SDSU-Brawley campuses to obtain input from the student body regarding the proposed route alternatives. The project is scheduled to have one more TAC meeting and present final analysis during the month of June. Virginia Mendoza, Project Manager

20. **Community of Niland Bus Stop Bench and Shelter Request**: The ICTC submitted a formal request to the California Department of Transportation (Caltrans) District 11 requesting their assistance in identifying a location for a bus stop bench and shelter in the Community of Niland along State Route 111 (SR-111). Caltrans and ICTC are finalizing a preferred location and any improvements necessary for installation of the bench and shelter.

21. **FALL 2015 SCAG “GO HUMAN” Campaign**: As a part of the SCAG Active Transportation Safety and Encouragement Campaign community outreach and advertising will kick off Fall 2015. SCAG is launching the “GO HUMAN” campaign with the goals of reducing traffic collisions in Southern California and encouraging the public to walk and bike more. The City of El Centro held its Tour de 8th Street on the 26th on March. The event highlighted future planned pedestrian and bicycle improvements along 8th Street in El Centro. The improvements were temporary demonstration projects for bicycle and pedestrian improvements facilitated by SCAG’s Active Transportation program consultant team. Those interested in participating in the “GO HUMAN” campaign please contact: Julia Lippe-Klein at lippe-klein@scag.ca.gov.

22. **California-Baja California Binational Region**: A Fresh Look at Impacts of Border Delays: Building upon previous Caltrans, SANDAG, and ICTC studies, this project will refine the economic models developed to assess economic impacts of delays at the land ports of entry (POEs) between the San Diego
and Imperial Counties region and Baja California, Mexico, on the border region economies. It will also estimate greenhouse gas (GHG) emissions of passenger and commercial vehicles due to northbound and southbound border delays at the six California POEs, and propose strategies to reduce GHG emissions at the border region. Lastly, extensive outreach to government agencies, local border communities, and private sector stakeholders will be conducted. Extensive data collection and modeling work has been conducted on these areas by ICTC, SANDAG and other agencies, this project will build upon that work.

The critical economic link between San Diego and Imperial Counties, and Baja California border region has local, regional, statewide, and national importance in both the U.S. and Mexico, and as such, the economic impacts of delays at the border have been shown to be significant. Additionally, the GHG emissions impacts of these delays to border communities are unknown. This study will primarily address these two concerns. The project will be funding is provided by Caltrans, SANDAG, and in-kind contributions from ICTC.

23. **California's Road Use Charge Pilot:** In 2014, Legislature passed Senate Bill 1077 (SB 1077) directing California to conduct a pilot program to study the feasibility of a road charge as a replacement for the gas tax to pay for road maintenance and repairs. A 15-member technical advisory committee (TAC), composed of representatives from diverse interests, is now working to study the potential for a road charge and outline the parameters of the pilot program. The TAC will craft the parameters of the road charge pilot program by the end of 2015. Beginning no later than January 1, 2017, thousands of California drivers will make history by volunteering to participate in the road charge pilot program to test new approaches. The pilot program will be implemented by the California State Transportation Agency. The outcomes of the road charge pilot program will be reported back to the TAC, the California Transportation Commission (CTC), and the Legislature no later than June 30, 2018. The CTC will provide recommendations on the pilot program to the Legislature in December 2018. The Legislature will then decide whether and how to enact a full-scale permanent road charge program.

24. **Meetings attended on behalf of ICTC:**
   - April 14, 2016 – I-8 Update/CRCP Pavement Rehab Second Groundbreaking by Caltrans in Winterhaven
   - April 14, 2016 – League of CA Cities - Imperial County Division Meeting in Brawley

From: Laurie Berman, Caltrans District 11, District Director
Re: District Director’s Report

The following is the California Department of Transportation, District 11 report for the Imperial County Transportation Commission (ICTC) Management Committee Meeting of May 11, 2016:

1. **Project Updates:**

   Please see map at end of report for project level detail.

2. **Traffic Operations:**

   **SR-78/Hovley Road, Brawley**

   The SR-78/Hovley Road Traffic Signal Project is completed and the signal was activated on April 19. Message boards were placed on the roadway two weeks ahead of activation to prepare motorists for the change.

   This is now a fully functioning signal along with vehicle detection loop sensors and “Signal Ahead” flashing beacons and pavement markings.

   **SR-98 Paving Operations, Calexico**

   On April 8, Caltrans conducted a paving job with enhanced traffic control on SR-98 from Ollie Avenue to SR-111 in Calexico. The enhanced traffic control assists in creating a safer environment for workers and reduces traffic collisions in work zones. Travelers on this route will experience a much smoother ride. Several photos are on Page 2.
3. **Communications:**

   **Highway Workers Memorial Day**

   Two Caltrans District 11 annual Highway Workers Memorial Day ceremonies are held each year. The first was held at the Caltrans Maintenance Yard in Brawley on **April 27** and the second will be at the District Office in San Diego on **May 10**. These ceremonies honor fallen highway workers, spotlight highway work zone safety and public safety awareness campaigns. Included is education of the public about the importance of slowing, moving over a lane when safe to do so, and being attentive while driving, especially when highway workers and emergency responders are present. Each ceremony includes representatives from Caltrans and the California Highway Patrol.

   **California State Bicycle and Pedestrian Plan**

   Caltrans conducted Regional Forums across the state with stakeholders to support the development of the first **California State Bicycle and Pedestrian Plan** (CSBPP). One forum was held in San Diego on May 2. There is an upcoming forum in Los Angeles on May 10. This new visionary and comprehensive policy plan will promote a multi-modal transportation system that supports active modes of transportation and creates a framework to increase safe bicycling and walking.

   You can participate in the Plan by going on-line to the following link, participating in the survey and signing up for updates.

4. **Construction:**

   The first three segments of the **Interstate 8 Continuously Reinforced Concrete Pavement Project** began construction:

   - **Segment 1**, is near El Centro from 0.6 mile west of Anderholt Road Overcrossing to 0.5 mile east of the East Highline Canal Bridge, was awarded to Coffman Specialties, Inc. on November 18, 2015. Construction began the first week of February. Construction is expected to be completed early 2018.

   - **Segment 2**, 26 miles east of El Centro from 0.8 mile west of State Route (SR) 98/I-8 separation to 0.6 mile east of the All American Canal, was awarded to Coffman Specialties, Inc. on December 15, 2015. Construction began early March 2016 and is scheduled to be completed in the spring of 2019.

   - **Segment 3**, near Winterhaven from 0.7 mile west of SR 186/I-8 separation to 0.3 mile east of Fourth Avenue Overcrossing, was awarded to Security Paving Company, Inc. December 22, 2015. Construction began mid-March 2016 and is scheduled to be completed in the spring of 2018.
The other 2 segments are scheduled to begin construction in February 2017. These 2 segments are:

- **Segment 4**, near El Centro from 0.6 mile west of I-8/SR-111 separation to 0.6 mile west of Anderholt Road overcrossing and from 0.5 mile east of the East Highline Canal Bridge to 0.8 mile west of I-8/SR-98 separation.
- **Segment 5**, near Winterhaven from 0.7 mile west of Ogilby Road Overcrossing to 0.7 west of the I-8/SR-186 separation.

5. **Local Assistance:**

**Active Transportation Program (ATP) Cycle 3 Call for Projects**
Caltrans is now accepting applications for the ATP Cycle 3 until **June 15, 2016**. Projects will be funded in fiscal years 19/20 and 20/21. Only applications with on-time submittals of *electronic and hard copies* (1 original and 4 copies) will be scored and evaluated. Electronic submittals must be submitted on June 15, 2016 by 11:59 PM. Hard copies must be postmarked by June 15, 2016. Applicants should read sections 22.5 “Eligible Projects” and 22.6 “Ineligible Projects” of the newly released Local Assistance Program Guidelines (LAPG), Chapter 22 “Active Transportation Program (ATP)”. There is no penalty for requesting State funds so it is recommended that applicants request for State-only funds. Please follow the link below for more information.

**Systemic Safety Analysis Report Program (SSARP) Phase 2 Call-for-applications**
The purpose of the SSARP is to assist local agencies in performing collision analysis, identifying safety issues on their roadway network, and developing a list of systemic low-cost countermeasures that can be used to prepare future HSIP and other safety program applications. Caltrans is now accepting applications for the SSARP Phase 2. Applications should be submitted to the attention of the District Local Assistance Engineer and must be received or postmarked by **May 27, 2016**. Agencies with unsuccessful SSARP Phase 1 applications should not submit new applications since they will be combined with the Phase 2 applications.

**Highway Safety Improvement Program (HSIP) Webinar - May 19, 2016**
On Thursday, May 19, Caltrans and FHWA will host a webinar to help local agencies in preparing Cycle 8 HSIP applications that can successfully compete for federal HSIP funds. The next HSIP call for projects (Cycle 8) will be announced in May, 2016. The call size will be approximately $150 million. Updated HSIP program guidelines, application forms, and other related information will also be available on our HSIP & SSARP webpage when the call for projects is announced.

2016 Earmark Repurposing

On March 8, 2016, FHWA issued guidance on the implementation of Earmark repurposing provisions contained in the 2016 Consolidated Appropriation Act. The ACT allows states to repurpose any earmark that was designated on or before September 30, 2005, and is less than 10% obligated or final vouchered and closed. The repurposed funds may be obligated on a new or existing project in the State within 50 miles of the earmark designation. The Repurposing Provision is only available in FY16.

FOR IMMEDIATE RELEASE

New Signal Activated
On State Route 78 and Hovley Road

Motorists Are Reminded to Drive Safely and Pay Attention When Approaching Intersections

EL CENTRO, Calif. – Caltrans announced that the new traffic signal on State Route 78 and Hovley Road north of Brawley was activated today. The new signal replaces stop signs on Hovley Road. Motorists in the area are reminded to drive alertly and be prepared to stop at the signal.

Message boards were placed on the roadway two weeks ahead of activation to prepare motorists for the change and will remain in place another week.

Work to install the new traffic signal began in January. The safety improvement project included installing vehicle detection loop sensors as well as “signal ahead” flashing beacons and pavement markings.

Caltrans launched a public outreach effort at the beginning of the year featuring a “Signal for Safety” poster. The focus of the campaign was to remind motorists to drive safely, obey all laws and to pay special attention to vehicles crossing at intersections.

A. 2015 FTIP AMENDMENT #15-19
May 6, 2016

ICTC Management Committee
Imperial County Transportation Commission
1405 N. Imperial Ave. Suite 1
El Centro, CA 92243

SUBJECT: 2015 Federal Transportation Improvement Program (FTIP) Amendment No. 15-19

Dear Committee Members:

The Federal Highway Administration (FHWA) approved the 2015 Federal Transportation Improvement Program (FTIP) submitted by the Southern California Association of Governments (SCAG). The FTIP is the document prepared by SCAG in collaboration with ICTC that lists projects to be funded with Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds for the next one- to four-year period. The 2015 FTIP is the list of projects, using a combination of federal, state and local funds that will implement a four year period consistent with SCAG’s long range plan, the 2016 Regional Transportation Plan/Sustainable Communities Strategy (2016 RTP/SCS).

Amendments are submitted to the 2015 FTIP to update and/or include new projects. Amendment 15-19 submitted to SCAG included 11 new projects all programmed in Federal Fiscal Year (FFY) 2016/2017. For project details refer to the project listing attached to this letter. The 2015 FTIP Amendment 15-19 was submitted to SCAG on April 26, 2016 and is anticipated to receive federal approval in July 2016.

This item is for information purpose only no action is required.

Sincerely,

MARK BAZA
Executive Director
