The Existing Conditions Analysis provides a foundation for the greenhouse gas (GHG) reduction policies that will be included as part of the Regional CAP by providing an understanding of policies, actions and initiatives that are currently in place throughout Imperial county. This analysis also provides the level of implementation and rating of quality, based on five criteria for successful implementation, as assessed by representatives for the respective jurisdictions. SUBJECT: Establish a designated Technical Advisory Committee of the Imperial Valley Resource Management Agency to improve Imperial Valley Jurisdiction’s compliance with CalRecycle Mandates

Dear Committee Members:

The Imperial Valley Resource Management Agency (IVRMA) would like to recommend a dedicated Technical Advisory Committee comprised of all eight Jurisdictions, (Brawley, Calipatria, Calexico, El Centro, Holtville, Imperial, Westmorland, County of Imperial - unincorporated cities), and franchised hauler representatives. The purpose of the meeting will be to create an opportunity for IVRMA, jurisdictions, and franchised hauler representatives to discuss CalRecycle mandates and requirements, monitor compliance and prepare for CalRecycle annual evaluations. IVRMA would like to recommend meeting every second Tuesday of month.

This meeting will also provide guidance on how to evaluate and subdue any challenges the jurisdiction might have. The plan will consist of a flow chart and timeline to follow. Each jurisdiction will be provided with the status and compliance of their city and what step will be taken to maintain or increase their compliance. The ultimate goal is to be prepared for the annual evaluation and increase compliance percentage. During the monthly meeting IVRMA will provide guidance, support, education and outreach on the current and upcoming CALRecycle’s mandates and requirements listed below:

**Assembly Bill 341 (AB341) Mandatory Commercial Recycling (MCR)** requires mandatory recycling starting July 1, 2012. Mandatory Commercial Recycling is required by businesses and multi-family dwellings of five units or more that generate 4 cubic yards of commercial solid waste per week.

**Assembly Bill 1826 (AB1826) Mandatory Commercial Organics Recycling (MORe)** requires mandatory recycling starting July 1, 2017. Mandatory Commercial Organic Recycling is required by businesses and multi-family dwellings of five units or more that generate 4 cubic yards of organic waste per week.

**Senate Bill 1383 (AB1383) Organic Waste Reduction Programs** requires the state to reduce organic waste [food waste, green waste, paper products, etc.] disposal by 75% by 2025. The law also requires the state to increase edible food recovery programs by 20 percent by 2025.

**Assembly Bill 827 (AB827) Mandatory Commercial Organic Bins** requires certain businesses to provide customers with food waste (organic waste) collection bins adjacent to all trash receptacles, to collect products purchased and consumed by customers on the premises.

Best Regards,

Daveline Villaseñor
